- Because our company offers adequate support and maintenance with appropriate backup.
- Because we constantly monitor any changes in the laws and regulations of the Republic of Macedonia.
- Due to our experience in this area - a complete implementation of the software in a few places.
- Because we accept tips for improving software.

Why Microsoft .NET environment?

Microsoft. NET environment is checked and worldwide generally accepted technology that follows the development of hardware components and provides a rich set of tools for rapid development of new functionalities.

Since it is a web-solution, the client-side program does not require any installation - enough is just a web browser. Client side needed just copying the files required for the operation of the fiscal printer.

Basic benefits of Microsoft .NET environment:

- client access to multiple servers
- ways of connecting: Local Network, Dialup connection or broadband Internet
- protection of data through different levels of reliability and use unique passwords for each user
- quickly search the data base through
- opportunity for the development of Web services for easy integration with other systems, made in the different environments
- transport data to distant points .. and many others

Functionalities of the system:

- Issuing green registration document
- Issuing blue registration document
- Issuing white registration document
- Automatic calculation of vehicle registration costs
- Creating installment payment agreements with firms
- Issuing invoices for the customer
- Issuing invoices installments
- Issuing fiscal bills
- Printing notices of expiration of registration
- Code tables:
  - Vehicle brands
  - Colors
  - Assignations
  - Forms
  - Places
  - Municipalities

Functionalities of the system:

- Issuing homologation document
- Printing traffic licenses (logs)
- Restrictions for registrations from Ministry of Internal Affairs
- Issuing license for vehicle in other property
- Issuing international vehicle license
- Issuing confirmation for technical-exploitation conditions
- Issuing request and confirmation for temp registration number
- Statistical reports
- Daily reports
- Different previews for all issued documents
- User management:
  - Adding user functions
  - Subtracting features from user

System requirements:

For server:
- Microsoft Windows Server 2003
- Microsoft SQL Server 2005

For client:
- Microsoft Windows 10
- Internet browser (Internet Explorer, Mozilla Firefox, Chrome)
- Adobe Reader

Note: In the case of a small number of competing users of the application, you can install MS SQL Server 2005 Express Edition, which is a free edition.
